Nice, France,
& Riviera

Dear Mother & Folks

Well I'm now back at the Riviera & also am in a new outfit. It is an outfit made up of all high pointers. We have been here two days & expect to go to a Staging Area real soon. Very few of the old boys are with me. They are still at the G. B. Prison. Of every thing goes alright we should be -- to a Staging Area and the 5th of November & probably leave for the good old U.S. A about ten days later. I think this is the real thing & if they get on the ball we should be home by the first of Dec. I'm praying that our orders are not changed.

We are about 5 miles from the

beautiful Riviera, are still sleeping in tents but it is not very cold so do not mind. Went into town last night and went to the Red Cross & to a fine show & had also got some Ice-Cream.

Haven't had any mail for a good while but mail is around has alot to do with it. Hope some comes in today. Just hope I get home in time for one of those football games I should be out in the Atlantic somewhere a month from today. Just keeping my fingers crossed.

Guess I close for now. Hope I get a letter soon.

Love to All

Jack
